Release Date: March 23rd, 2015

Drinking Water System Repair to Impact Traffic on Englewood Avenue

Water service repairs will disrupt traffic in the westbound and eastbound lanes on Englewood Avenue on Tuesday, March 24th, 2015. The work will begin at 7:00 am and should be completed by 3:30 pm.

While the project is underway, Englewood between 58th Avenue and 62nd Avenue will be restricted to one lane in each direction through the construction zone.

While the work is underway, westbound and eastbound traffic will be controlled and flagged around the work zone by stationed flaggers. Because of heavy traffic volume, drivers can expect delays in the project area. Drivers should use alternate routes if possible until the work is completed.

Access to homes and businesses in the project area will be maintained as best as possible and emergency vehicles will be allowed through the project area when necessary.

As always, the schedule for this type of project is subject to change daily dependent on weather, equipment failure, and emergencies.

For more information about the project, contact Water Distribution Supervisor Emilio Lopez at 575-6196.
