Infrastructure Project to Impact Traffic on Nob Hill Next Week

Improvements to a water main and roadway surfaces are continuing to impact traffic on a portion of Nob Hill Boulevard.

Final paving on Nob Hill between 28th Avenue to 40th Avenue will begin on November 10th and is scheduled to be completed by November 12th. Paving will take place between 7:00 am and 5:30 pm.

While the paving is underway, lanes will be narrowed intermittently. Traffic will be controlled through the project area by flaggers.

Drivers should expect localized traffic and parking impacts in the area and are encouraged to slow down and proceed cautiously through work zones.

Access to homes and businesses in the project area will be maintained as best as possible and emergency vehicles will be allowed through the project area if necessary.

As always, the schedule for this type of project is subject to change daily dependent on weather, equipment failure, and emergencies.
