Subject: Signal Work at 32nd and Nob Hill

Contact: Traffic Operations Supervisor Doug Metz – 575-6720

Communications & Public Affairs Director Randy Beehler – 901-1142

Release Date: Wednesday, July 19th, 2017

Traffic Signal Work at 32nd Avenue and Nob Hill to Affect Drivers

Traffic signals at the intersection of 32nd Avenue and Nob Hill Boulevard will be flashing red for most of the morning on Thursday, July 20th while new turn signals are installed at the intersection.

City of Yakima crews will be working on installing flashing yellow arrow capabilities at the intersection from approximately 8:00 am until about noon on July 20th. While the work is underway, the signals at the 32nd and Nob Hill intersection will flash red. Drivers should be especially attentive while traveling through the project area.

Drivers are reminded that the speed limit through all traffic-related works zones within the City of Yakima is 20 miles-per-hour.

During the project, traffic delays in the area are likely to occur. Drivers should use alternate routes if possible until the project is completed.

Access to homes and businesses in the area will be maintained as best as possible.

As always, the schedule for this type of a project is subject to change daily dependent on weather, equipment failure, and emergencies.

For additional information about this project, contact Traffic Operations Supervisor Doug Metz at 576-6270.
