News Release

Subject: Wastewater Line Installation

Contact: Utility Engineer Shelley Willson – 576 - 6303

Community Relations Manager Randy Beehler – 901-1142

Release Date: Tuesday, February 12th, 2013

Wastewater Line Installation Will Interrupt Traffic on 16th Avenue

Traffic on 16th Avenue between Fruitvale Boulevard and River Road will be interrupted from Wednesday, February 13th through Friday, February 15th while a project is underway to install an industrial wastewater line.

Crews from TTC Construction, a Yakima-based contracting firm, will be working in the northbound lane of 16th Avenue from 6:30 am to 5:30 pm each of the three days to install the 12-inch diameter line. Traffic controls will be in place and one lane in each direction will remain open throughout the project.

During the project, traffic delays in the area are likely to occur. Drivers should use alternate routes if possible until the project is completed.

Access to businesses in the area will be maintained and emergency vehicles will be allowed through the project area if necessary.

As always, the schedule for this type of project is subject to change daily, dependant on weather, equipment failure, and emergencies.

For additional information regarding this project, contact Utility Engineer Shelley Willson at 576-6303.
