Subject: Wastewater Line Repair Project

Contact: Wastewater Collections Supervisor Bob Brown – 406-7103

Communications & Public Affairs Director Randy Beehler – 901-1142

Release Date: Friday, April 28th, 2017

Wastewater Line Project to Impact Traffic on Nob Hill

A project to repair a wastewater line will impact traffic along a two-block section of Nob Hill Boulevard for most of each day on Tuesday, May 2nd and Wednesday, May 3rd.

Crews will be working on the project between 6:00 am and 5:00 pm on May 2nd and 3rd. While the project is underway, traffic on Nob Hill between 19th Avenue and 21st Avenue will be restricted to one lane in each direction. The center turn lane along that section of Nob Hill will be closed for the duration of the wastewater line repair project.

Drivers are reminded that the speed limit through all traffic-related works zones within the City of Yakima is 20 miles-per-hour.

During the project, traffic delays in the area are likely to occur. Drivers should use alternate routes if possible until the project is completed.

Access to homes and businesses in the area will be maintained and traffic will be allowed through the project area when possible.

As always, the schedule for this type of a project is subject to change daily dependent on weather, equipment failure, and emergencies.

For additional information about this project, contact Wastewater Collections Supervisor Bob Brown at 406-7103.
