About this Report

As part of its participation in The National Citizen Survey™, the City of Yakima conducted a mailed survey of 3 residents. Surveys were mailed to randomly selected households in June of 2013 and data was collected through July 12, 2013. After the official data collection period was over and the data were reported (see the report, *The National Citizen Survey: Community Livability Report, Yakima, WA, 2013*), the City made available a Web-based survey to its residents through a link on the City's Web site. Visitors to the site were able to complete the survey during July and early August and 580 surveys were received. Of the 580 surveys completed online, 557 were completed in English and 23 were completed in Spanish.

This report contains the results of this administration of the Web-based survey and have not been weighted to current population estimates of Yakima.

Complete Survey Responses

The following pages contain a complete set of responses to each question on the survey, excluding the “don’t know” responses. The percent of respondents giving a particular response is shown followed by the number of respondents (denoted with “N=“).
