BINDING SITE PLAN

The purpose of Binding Site Plans are to provide a process for the division of land for the purpose of sale, lease, or transfer of commercial or industrial lots as an alternative to the subdivision process. The Binding Site Plan process applies solely for the sale, lease, or transfer of lots. Binding Site Plans are typically used to separate outbuildings in the commercial or industrial office complexes, or shopping centers, and for the creation of individual lots for mobile/manufactured home parks or condominiums.

Talk to a City Planner: Before preparing your application, you may wish to have a City Planner review your proposal. The City offers “Pre-Application” meetings in which you can gain a better understanding of the review process and potential requirements for your project from various City departments before you formally submit your land use application and pay the application fee. More information and instructions for applying for a Pre-Application meeting can be found online: <https://www.yakimawa.gov/services/planning/pre-application/>.

Submit Your Application: A completed application on forms provided by the Planning Division is required along with an application fee and a Preliminary Binding Site Plan. The proposed plan must be prepared by a licensed surveyor or engineer. An Environmental Review may be required. Once you have submitted an application, a Planner will be assigned to conduct the review.

You are encouraged to discuss your application plans with your neighbors prior to submitting your application. Often, neighbors will respond more openly with the applicant on a preliminary and private basis outside of the formal review process. While this is not a requirement, it is very helpful to address any of the neighbor’s concerns.

Development Service Team (DST): Applications pass through the technical review process consisting of representatives from City departments, State agencies, and private utility companies. Should significant concerns arise during the DST meeting, a conference may be scheduled between you and the appropriate agency in order to discuss possible application modifications. After the DST meeting, you may have an opportunity to change aspects of your proposal to address any concerns raised. To do this, submit your modifications to your Planner; a staff report will be prepared based upon the information provided.

Additional Information: During the review process, the Subdivision Administrator may request additional/more detailed information. The decision may be deferred until the requested information is provided.

Notice of Application: A copy of your Preliminary Binding Site Plan, and other pertinent information will be mailed to the applicant/owner and all property owners within 300 feet of the subject property. The applicant must post the property with any required Land Use Action signs at least 20 days prior to the decision being issued. This notice provides the public an opportunity to submit written comments on the proposal during a 20-day comment period.

Decision: the Subdivision Administrator will issue a decision for approval, approval with conditions, or denial.

Appeal the Decision?: The Subdivision Administrator’s Binding Site Plan Decision is final unless appealed. Appeals of the Subdivision Administrator’s Decision follow the rules set forth in YMC § 14.15.110; the appeal fee is \$580. If you are dissatisfied with the written decision, discuss your views with your Planner. The Subdivision Ordinance allows for appeals of all or part of the written decision.

Conditions of Approval: Approval of your Binding Site Plan may contain specific requirements that must be met prior to the City signing and you recording your plat. These requirements may include frontage improvements to the street such as the construction of new curb, gutter, sidewalks, right-of-way dedication, and street lights, which must be installed *or* financially secured (City Engineer approval required).

Final Plat: Once the conditions of approval have been completed, the applicant must submit a Final Binding Site Plan application with the appropriate application fee, along with a Certificate of Title prepared by a title company, the mylar, and proof that all conditions have been met, including a letter of completion from various interested governmental and quasi-governmental agencies. Once the Subdivision Administrator approves the Final Plat, you may record the Final Plat with the Yakima County Auditor’s Office, as long as property taxes are paid for the current year.
