TYPE (3) REVIEW

Class (3) uses are uses that are generally considered “incompatible” with adjacent and abutting properties because of their size, emissions, traffic generation, neighborhood’s character, or for other reasons. However, they may be compatible with other uses if they are properly sited and designed. The review time period is approximately three months.

How do I get started?: The initial step is to determine if your project will need to go through the Type (3) review process. The Yakima Urban Area Zoning Ordinance (Table 4-1, Permitted Land Uses) defines those land uses that require a Type (3) Review.

You are encouraged to discuss your proposal with your neighbors prior to submitting your application. Often, neighbors will respond more openly with the applicant on a preliminary and private basis outside of the formal review process. While this is not a requirement, it is very helpful to address any of the neighbor’s concerns.

Talk to a City Planner: Before preparing your application, you may wish to have a City Planner review your proposal. The City offers “Pre-Application” meetings in which you can gain a better understanding of the review process and potential requirements for your project from various City departments before you formally submit your land use application and pay the application fee. More information and instructions for applying for a Pre-Application meeting can be found online: <https://www.yakimawa.gov/services/planning/pre-application/>.

Submit Your Application: A completed application on forms provided by the Planning Division is required along with an application fee, a written narrative, and a general site plan. Once you have submitted an application, a Planner be assigned as your contact person and will assist you in the review. To expedite the process, be sure that all parts of the application package are completed. All narratives, when requested, must be completed with each question being answered separately. All items requested on the site plan checklist, must be shown on the site plan and the completed checklist submitted with your application. Any items that are not applicable should be so noted. And, please don’t forget to sign your application and site plan. If you have any questions about your application please ask to speak with a planner.

Development Service Team (DST): Representatives from City departments, State agencies, and private utility companies will review your proposal. Should significant concerns arise during the DST meeting, a conference may be scheduled between you and the appropriate agency in order to discuss possible application modifications. After the DST meeting, you may have an opportunity to change aspects of your proposal to address any concerns raised. To do this, submit your modifications to your Planner; a staff report will be prepared based upon the information provided. A staff report will be prepared for the Hearing Examiner who has the ability to approve, approve with conditions, or deny the request.

Additional Information: During the review process, the Hearing Examiner may request additional/more detailed information. The Hearing Examiner may defer his decision until the requested information is provided.

Notice of Application and Public Hearing: A copy of your application, written narrative, the preliminary site plan, and other pertinent information will be mailed to the applicant/owner and all property owners within 300 feet of the subject property. A notice of the application and hearing date will be published in the Yakima Herald Republic. The applicant must post the property with City supplied signs at least 20 days prior to the hearing. This notice provides the public an opportunity to submit written comments on the proposal during a 20-day comment period.

Attend Public Hearing: The Hearing Examiner will conduct the Public Hearing. Hearings are generally scheduled on the second and fourth Thursday of the month beginning at 9:00 AM in the City of Yakima Council Chambers. These hearings are televised on the Yakima Public Access Channel (YPAC). You or your representative must attend the hearing; however, representation by an attorney is not required.

Notice of Decision: Within ten working days after the close of the public hearing, the Examiner will issue a written decision. Notice of the Hearing Examiner’s decision will be mailed to you and all parties of record.

Appeal the Decision?: For Type (3) Decisions, the Hearing Examiner’s Decision is final unless appealed to City Council. If you are not satisfied with the decision, discuss your concerns with a Planner. The Zoning Ordinance allows for appeals of all or part of the Decision. Appeals of Hearing Examiner Decision must be filed within 14 days of the date of mailing of the Decision on forms provided by the City of Yakima along with the appeal fee.

SITE PLAN INSTRUCTIONS

A Detailed Site Plan Is Required: On August 8, 1996, the City Council passed a resolution (No. R-96-91) adopting a requirement that all site plans submitted in conjunction with any building permit application, land use application, and environmental application shall contain certain information and be approved by the appropriate Division Manager. All information that is applicable to your proposal shall be checked off and clearly displayed on the site plan. It is in the applicant’s best interest to provide a carefully drawn and scaled site plan with all required information. The decision on whether or not to grant approval of your development proposal is largely based on the information you provide. **An application cannot be processed until an adequate site plan is submitted.**

Please complete this checklist and include it with your site plan. The site plan must contain all pertinent information. Items not applicable to the proposed project shall be noted.

- 1) **Use Ink:** Use blue or black permanent ink. It may be helpful to draft the site plan in pencil then trace over in ink. Ink is necessary for adequate duplication.
- 2) **Use A Straight Edge:** All lines must be straight and done with the aid of a ruler or other straight edge. Use a compass when delineating circular drawings such as cul-de-sacs. Computer drafted site plans are acceptable.
- 3) **Draw To Scale:** Site plans shall be drawn to scale. The site plan template has a suggested map scale of one inch equaling twenty feet (1”=20’). Distances on the map must be as representative of reality as possible. For example, if the distance from a structure to a property line is 20 feet, the distance on the site plan will be 1 inch.
- 4) **Use Site Plan Checklist:** Use the site plan checklist and provide all applicable information on the site plan.
- 5) **Fill In Information On The Site Plan Template.** The template is available online on the Planning Division webpage (<https://www.yakimawa.gov/services/planning/>) in the “application forms and fees” section, and also at the permits counter on the 2nd floor of City Hall. If you choose not to use the city’s site plan template, please provide the information listed on the site plan template (background info, lot coverage, parking, etc.) on your site plan.

Note: You may benefit from the aid of a professional in the preparation of a site plan.
