LONG PLAT

A Long Plat is the division or re-division of land into ten or more (or division of property short platted in the last five years) lots, tracts, or parcels for the purpose of sale, lease, or transfer of ownership. The long platting procedure is also used for creation of fewer than ten additional lots where the subdivision does not meet the Short Plat or Exemption requirements.

Submit Your Application: Following preliminary long plat approval the applicant will have 5 years in which to comply with the conditions of approval and submit the final long plat. A completed application on forms provided by the Planning Division is required along with an Application Fee and a Final Plat Plan. A surveyor must prepare the Final Plat due to the level of detail required. Each final plat submitted for approval shall be accompanied by an original reproducible drawing of the subdivision, a current title report prepared by a title company, the mylar, and proof that all conditions have been met, including a letter of completion from various interested governmental and quasi-governmental agencies. Once you have submitted an application, a Planner will be assigned to review and process your application.

Decision: The Subdivision Administrator will issue a decision for the final plat. Once the Subdivision Administrator approves the Final Plat, you may record the Final Plat with the Yakima County Auditor's Office, as long as property taxes are paid for the current year. In accordance with YMC 14.20.230, no additional residential building permits shall be issued for the newly recorded lots until a copy of the final recorded long plat is submitted to the City of Yakima Planning Division.

Appeal the Decision?: The Subdivision Administrator's decision is final unless appealed. If you are dissatisfied with the written decision, discuss your views with your Planner. Appeals must be filed on forms provided by the City along with the appeal fee within 14 days of the date of mailing of the decision.
