RECOMMENDATION TO THE YAKIMA CITY COUNCIL
FOR

March 12, 2025**

WHEREAS, Pursuant to RCW 36.70A.130(1) the City is required to take legislative action to review and revise its development regulations in accordance with the Growth Management Act; and

WHEREAS, These updates to Yakima Municipal Code (YMC) Title 14 and 15 are considered to be a non-project application without a specific use or site plan to be considered; and

WHEREAS, Under the provisions of YMC Ch. 1.42 the Yakima Planning Commission is responsible for the review of amendments to the City's Yakima Zoning Ordinance, Subdivision Ordinance, and other land use matters, and for recommending the approval, modification, or denial of each amendment; and

WHEREAS, The Yakima Planning Commission held a study session to review the proposed amendments on October 9, 2024; and

WHEREAS, All required public notice for these amendments were provided, in accordance with the provisions of YMC Ch. 16.10, on January 17, 2025 and January 23, 2025; and

WHEREAS, SEPA Environmental Review for these updates was considered, a Determination of Nonsignificance was issued on January 27, 2025; and

WHEREAS, The Yakima Planning Commission held an open record public hearing on February 26, 2025, to hear testimony from the public, consider the amendments, and provide a recommendation to the Yakima City Council;

I. **PURPOSE AND DESCRIPTION OF PROPOSED AMENDMENTS:**

The complete track changes text can be found in Exhibit "A" and is incorporated herein by reference. A summary of the amendments is as follows:

I. YMC Chapter 15.02 – Definitions

- a. Removing some unused definitions from the Municipal Code

Staff Analysis: There are a few definitions within the YMC that are no longer used or that have been consolidated into other definitions and can be removed from the Ordinance.

II. YMC Chapter 15.04 – Table 4-1

- a. Amending several land use review types within the table.

Staff Analysis: The Washington State Legislature recently passed SB 5290 (RCW 36.70B.080) which greatly altered the processing times for land use review applications throughout the State. Specifically Type 2 Reviews within the City have their review timelines reduced. In an effort to streamline issuance of permits and prevent bottleneaking of applications within the Planning Division, reexamining the uses within the table and reevaluate whether certain land uses can be moved to a Type 1 is consistent with the States effort to reduce processing timelines and the City Council's objective to streamline processing,

III. YMC Chapter 15.11 – General Application Requirements

- a. Updating the language specific to Type 1, 2, and 3 reviews;
b. Updating the notice requirements table;
c. Updating the requirements for general site plan requirements;
d. Removing the section for the detailed site plan form and contents;

Staff Analysis: The requirements for a detailed site plan and a general site plan vary greatly, which has led to some confusion at the staff level and confusion with customers. Clarifying this from the ordinance will allow the Planning Division to work directly with the Engineering and Codes Division to develop a site plan checklist which meets the needs of the entire Community Development Department and better address customer concern. Site plan checklists will be managed by the Planning Division through internal policy action and available to the public at the permit counter prior to land use submittal.

II. **YAKIMA COMPREHENSIVE PLAN 2040**

The proposed text amendments are consistent with the following goals and policies of the Comprehensive Plan 2040

Goal 2.1: Establish a development pattern consistent with the community's vision.

Policy 2.1.6: Adopt coordinated development regulations that facilitate Yakima's preferred land use pattern (e.g. allowed density, uses, and site provisions)

- Refine the land use code on an ongoing basis to make it user-friendly by employing simple language, easy to read charts, and illustrative graphics.
- Monitor and refine the land use code as needed to facilitate the preferred land use pattern and development character.
- Integrate an appropriate balance of predictability and flexibility when updating development regulations that allow ease of administration and interpretation and offer optional ways of meeting requirements when possible.

Goal 2.4. Downtown. Enhance the character and economic vitality of Yakima's Central Business District.

Policy 2.4.2. Land Uses - Maintain and strengthen downtown as the center for civic, retail, cultural, dining and entertainment activity in Yakima.

E. Emphasize storefronts with active uses (retail, food and drink, and entertainment) along strategic downtown core block frontages.

III. YAKIMA PLANNING COMMISSION'S CONCLUSIONS

1. No adverse impacts have been identified;
2. The proposed updates underwent Environmental Review;
3. The proposed amendments are consistent with the Yakima Urban Area Zoning Ordinance, 2040 Comprehensive Plan, and Housing Action Plan.

MOTION

Based on the testimony and evidence presented during this afternoon's public hearing, it was moved and seconded that Planning staff draft findings of fact and forward a recommendation of approval to the Yakima City Council. The motion carried 9-1.

RECOMMENDATION TO CITY COUNCIL

The Planning Commission of the City of Yakima, having received and considered all evidence and testimony presented at the public hearing, and having received and reviewed the record herein, hereby recommends that the City Council of the City of Yakima APPROVE the proposed text amendments to the Yakima Municipal Code.

RECOMMENDED this 3rd day of February, 2025.

15.04.010 Purpose.

For any particular district, there are some uses that are consistent with the intent and character of the zoning district; some uses that may be consistent if careful site design neutralizes the adverse characteristics of the use or site; and other land uses that, regardless of site design, are not consistent with the intent or character of the district. The purpose of this chapter is to establish the degree to which each land use is permitted in each district and establish the appropriate type of review for each land use in terms of the specific standards and requirements of each district. (Ord. 2016-029 § 1 (Exh. A) (part), 2016: Ord. 2008-46 § 1 (part), 2008: Ord. 2947 § 1 (part), 1986).

15.04.020 Land use classification system.

Land uses within each zoning district shall be classified into four principal categories which establish a class of use. The class of use generally corresponds to a type of review that is based on a level of review complexity. However, certain circumstances may alter the type of review due to a higher or lower complexity.

A. Class (1) uses are permitted, provided the district standards are met. The administrative official shall use the procedures in YMC Chapter 15.13 to review Class (1) uses and associated site improvements. Class (1) uses in certain situations may require a Type (2) review, as required by YMC 15.13.020. The procedures in YMC Chapter 15.14 shall be used to review and evaluate Class (1) uses that require a Type (2) review process.

B. Class (2) uses are generally permitted in the district. However, the compatibility between a Class (2) use and the surrounding environment cannot be determined in advance, and occasionally a Class (2) use may be incompatible at a particular location. Therefore, a Type (2) review by the administrative official is required in order to promote compatibility with the intent and character of the district and the policies and development criteria of the Yakima urban area comprehensive plan. The procedures in YMC Chapter 15.14 shall be used to review and evaluate Class (2) uses. In certain circumstances, the administrative official may require that a Class (2) use undergo a Type (3) review, as provided within this title.

C. Class (3) uses are generally not permitted in a particular district, but may be allowed by the hearing examiner after a Type (3) review and public hearing. The hearing examiner may approve, deny, or impose conditions on the proposed land use and site improvements to promote compatibility with the intent and character of the district and the policies and development criteria of the Yakima urban area comprehensive plan. The procedures in YMC

Yakima Municipal Code
 Chapter 15.10 CONDITIONS OF
 APPROVAL/ADMINISTRATIVE ADJUSTMENT OF
 STANDARDS

Chapter 15.15 shall be used to review and evaluate Class (3) uses or Class (2) uses that have been forwarded to the hearing examiner for review.

D. Uses Not Permitted. Any use listed in Table 4-1 and not classified as either a Class (1), (2), or (3) use in a particular district shall not be permitted in that district. A request for an unclassified use, under YMC 15.04.040, that is denied by the hearing examiner is considered as a use not permitted.

E. Multiple Uses. When two or more uses are proposed for the same project, the entire project shall be subject to the type of review required by the highest classified use, Class (3) uses being higher than Class (2), and Class (2) uses being higher than Class (1).

F. Administrative Official’s Determination of Table of Permitted Land Uses.

1. The administrative official shall be authorized to determine whether a new or expanded use not otherwise identified in Table 4-1, Permitted Land Uses, is consistent with or similar to those already provided for within the table.

2. In the event that an applicant is aggrieved by a verbal determination of the administrative official, the applicant may submit a request for a written determination to the city of Yakima planning division.

3. If the administrative official cannot conclusively determine that a new or expanded use is consistent with or similar to those identified within Table 4-1, the determination may be referred to the hearing examiner for an interpretation as provided for in YMC Ch. 15.22. (Ord. 2016-029 § 1 (Exh. A) (part), 2016; Ord. 2008-46 § 1 (part), 2008; Ord. 3019 § 12, 1975; Ord. 2947 § 1 (part), 1986).

15.04.030 Table of permitted land uses.

Table 4-1 titled “Permitted Land Uses” is incorporated as part of this section. Each permitted land use listed in Table 4-1 is designated a Class (1), (2), or (3) use for a particular zoning district. In addition, some Class (1) uses may require Type (2) review in accordance with YMC 15.04.020. All permitted land uses and associated site improvements are subject to the design standards and review procedures of this title.

Recommendation Regarding Amendments to the YMC Titles 14 & 15

TO: City of Yakima Planning Commission
FROM: Trevor Martin, AICP, Planning Manager
SUBJECT: Zoning Ordinance Text Amendments – File TXT#001-25
FOR MEETING OF: February 26, 2025

I. PURPOSE AND DESCRIPTION OF PROPOSED AMENDMENTS:

The City of Yakima Planning Division is proposing non-project amendments to the City of Yakima’s Municipal Code Title 14 and 15. The purpose of the proposed amendments are to streamline application requirements.

The Planning Commission held a study session for the proposed amendments on October 9 and 23, 2024.

Proposed Amendment Sections:

The complete track changes text can be found in Exhibit “A” and is incorporated herein by reference. A summary of the amendments is as follows:

- 1. YMC Chapter 15.02 – Definitions
 - a. Removing some unused definitions from the Municipal Code

Staff Analysis: There are a few definitions within the YMC that are no longer used or that have been consolidated into other definitions and can be removed from the Ordinance.

- 2. YMC Chapter 14.15 – Short Subdivision – Procedure
 - a. Removing Public notice of Short Plat.

Staff Analysis: The Public Notice of a Short Plat is a self-imposed notice requirement and not required by the RCW. Removing the requirement will help streamline processes. Additionally, the overall processing time for self-imposed public notice applications has been reduced, which increases the overall workload required from City staff. Removing the public notice requirement will allow staff to process permits more expeditiously.

- 3. YMC Chapter 15.04 – Table 4-1
 - a. Amending several land use review types within the table.

Staff Analysis: The Washington State Legislature recently passed SB 5290 (RCW 36.70B.080) which greatly altered the processing times for land use review applications throughout the State. Specifically Type 2 Reviews within the City have their review timelines reduced. In an effort to streamline issuance of permits and prevent bottlenecking of applications within the Planning Division, reexamining the uses within the table and reevaluate weather certain land uses can be moved to a Type 1 is consistent with the States effort to reduce processing timelines and the City Council’s objective to streamline processing,

4. YMC Chapter 15.11 – General Application Requirements
 - a. Updating the language specific to Type 1, 2, and 3 reviews;
 - b. Updating the notice requirements table;
 - c. Updating the requirements for general site plan requirements;
 - d. Removing the section for the detailed site plan form and contents;

Staff Analysis: The requirements for a detailed site plan and a general site plan vary greatly, which has led to some confusion at the staff level and confusion with customers. Clarifying this from the ordinance will allow the Planning Division to work directly with the Engineering and Codes Division to develop a site plan checklist which meets the needs of the entire Community Development Department and better address customer concern. Site plan checklists will be managed by the Planning Division through internal policy action and available to the public at the permit counter prior to land use submittal.

II. YAKIMA COMPREHENSIVE PLAN 2040

The proposed text amendments are consistent with the following goals and policies of the Comprehensive Plan 2040

- Goal 2.1: Establish a development pattern consistent with the community's vision.
 Policy 2.1.6: Adopt coordinated development regulations that facilitate Yakima's preferred land use pattern (e.g. allowed density, uses, and site provisions)
- Refine the land use code on an ongoing basis to make it user-friendly by employing simple language, easy to read charts, and illustrative graphics.
 - Monitor and refine the land use code as needed to facilitate the preferred land use pattern and development character.
 - Integrate an appropriate balance of predictability and flexibility when updating development regulations that allow ease of administration and interpretation and offer optional ways of meeting requirements when possible.

Goal 2.4. Downtown. Enhance the character and economic vitality of Yakima's Central Business District.

Policy 2.4.2. Land Uses - Maintain and strengthen downtown as the center for civic, retail, cultural, dining and entertainment activity in Yakima.

- E. Emphasize storefronts with active uses (retail, food and drink, and entertainment) along strategic downtown core block frontages.

III. ENVIRONMENTAL REVIEW (SEPA)

This project was processed for review under the State Environmental Policy Act as a procedural action per WAC 197-11-800(19), and a Determination of Nonsignificance (DNS) was issued on January 27, 2025 (SEPA#001-25).

15.04.010 Purpose.

For any particular district, there are some uses that are consistent with the intent and character of the zoning district; some uses that may be consistent if careful site design neutralizes the adverse characteristics of the use or site; and other land uses that, regardless of site design, are not consistent with the intent or character of the district. The purpose of this chapter is to establish the degree to which each land use is permitted in each district and establish the appropriate type of review for each land use in terms of the specific standards and requirements of each district. (Ord. 2016-029 § 1 (Exh. A) (part), 2016: Ord. 2008-46 § 1 (part), 2008: Ord. 2947 § 1 (part), 1986).

15.04.020 Land use classification system.

Land uses within each zoning district shall be classified into four principal categories which establish a class of use. The class of use generally corresponds to a type of review that is based on a level of review complexity. However, certain circumstances may alter the type of review due to a higher or lower complexity.

A. Class (1) uses are permitted, provided the district standards are met. The administrative official shall use the procedures in YMC Chapter 15.13 to review Class (1) uses and associated site improvements. Class (1) uses in certain situations may require a Type (2) review, as required by YMC 15.13.020. The procedures in YMC Chapter 15.14 shall be used to review and evaluate Class (1) uses that require a Type (2) review process.

B. Class (2) uses are generally permitted in the district. However, the compatibility between a Class (2) use and the surrounding environment cannot be determined in advance, and occasionally a Class (2) use may be incompatible at a particular location. Therefore, a Type (2) review by the administrative official is required in order to promote compatibility with the intent and character of the district and the policies and development criteria of the Yakima urban area comprehensive plan. The procedures in YMC Chapter 15.14 shall be used to review and evaluate Class (2) uses. In certain circumstances, the administrative official may require that a Class (2) use undergo a Type (3) review, as provided within this title.

C. Class (3) uses are generally not permitted in a particular district, but may be allowed by the hearing examiner after a Type (3) review and public hearing. The hearing examiner may approve, deny, or impose conditions on the proposed land use and site improvements to promote compatibility with the intent and character of the district and the policies and development criteria of the Yakima urban area comprehensive plan. The procedures in YMC

Chapter 15.15 shall be used to review and evaluate Class (3) uses or Class (2) uses that have been forwarded to the hearing examiner for review.

D. Uses Not Permitted. Any use listed in Table 4-1 and not classified as either a Class (1), (2), or (3) use in a particular district shall not be permitted in that district. A request for an unclassified use, under YMC 15.04.040, that is denied by the hearing examiner is considered as a use not permitted.

E. Multiple Uses. When two or more uses are proposed for the same project, the entire project shall be subject to the type of review required by the highest classified use, Class (3) uses being higher than Class (2), and Class (2) uses being higher than Class (1).

F. Administrative Official’s Determination of Table of Permitted Land Uses.

1. The administrative official shall be authorized to determine whether a new or expanded use not otherwise identified in Table 4-1, Permitted Land Uses, is consistent with or similar to those already provided for within the table.

2. In the event that an applicant is aggrieved by a verbal determination of the administrative official, the applicant may submit a request for a written determination to the city of Yakima planning division.

3. If the administrative official cannot conclusively determine that a new or expanded use is consistent with or similar to those identified within Table 4-1, the determination may be referred to the hearing examiner for an interpretation as provided for in YMC Ch. 15.22. (Ord. 2016-029 § 1 (Exh. A) (part), 2016: Ord. 2008-46 § 1 (part), 2008: Ord. 3019 § 12, 1975; Ord. 2947 § 1 (part), 1986).

15.04.030 Table of permitted land uses.

Table 4-1 titled “Permitted Land Uses” is incorporated as part of this section. Each permitted land use listed in Table 4-1 is designated a Class (1), (2), or (3) use for a particular zoning district. In addition, some Class (1) uses may require Type (2) review in accordance with YMC 15.04.020. All permitted land uses and associated site improvements are subject to the design standards and review procedures of this title.

ENVIRONMENTAL CHECKLIST

JAN 10 2025

STATE ENVIRONMENTAL POLICY ACT (SEPA)
(AS TAKEN FROM WAC 197-11-960)
YAKIMA MUNICIPAL CODE CHAPTER 6.88

CITY OF YAKIMA
PLANNING DIV.

PURPOSE OF CHECKLIST

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

INSTRUCTIONS FOR APPLICANTS

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help you describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

USE OF CHECKLIST FOR NONPROJECT PROPOSALS

For non-project proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (part D). Please completely answer all questions that apply and note that the words "project", "applicant", and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B – Environmental Elements – that do not contribute meaningfully to the analysis of the proposal.

There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.):

The City of Yakima Planning Division is proposing non-project minor amendments to the following Subdivisions sections: TEXT; to the following Subdivision and Zoning chapters: 14.15; 15.02; 15.04; Table 4-1; 15.11; 15.12; 15.13; The purpose of these amendments is to streamline some of the City's processes, remove ambiguity within the zoning ordinance, and comply with satae mandates in regards to housing initiatives

D. SUPPLEMENTAL SECTION FOR NONPROJECT ACTIONS ONLY (to be completed by the applicant)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment. When answering these questions, be aware of the extent the proposal, or the types of activities that would likely result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

The proposed changes will not affect how land uses discharge to water, emissions to the air, storage, or release of toxic or hazardous substances, or the production of noise.

Proposed measures to avoid or reduce such increases are:

None proposed. Any future measures to avoid such increases will be dealt with at the project level.

RECEIVED

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

The proposed changes will not affect plants, animals, fish, or marine life, as they are regulatory in nature.

Proposed measures to protect or conserve plants, animals, fish, or marine life are:

None proposed. Any future measures to avoid such increases will be dealt with at the project level.

3. How would the proposal be likely to deplete energy or natural resources?

The proposed changes do not involve regulations dealing with energy or natural resources.

Proposed measures to protect or conserve energy and natural resources are:

None proposed. Any future measures to avoid such increases will be dealt with at the project level.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

The proposed changes will not change or affect any environmentally sensitive areas or regulations.

Proposed measures to protect such resources or to avoid or reduce impacts are:

None proposed. Any future measures to avoid such increases will be dealt with at the project level.

D. SUPPLEMENTAL SECTION FOR NONPROJECT ACTIONS ONLY (to be completed by the applicant)

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

No change to shoreline uses are proposed. Depending on future proposals, the level of review will be dependent on the type of use and zoning district.

Proposed measures to avoid or reduce shoreline and land use impacts are:

None proposed. Any future measures to avoid such increases will be dealt with at the project level.

RECEIVED

JAN 10 2025

CITY OF YAKIMA

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Increases to traffic as a result of increased residential and/or project density will be examined at the project level.

Proposed measures to reduce or respond to such demand(s) are:

None proposed. Any future measures to avoid such increases will be dealt with at the project level.

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

15.04.010 Purpose.

For any particular district, there are some uses that are consistent with the intent and character of the zoning district; some uses that may be consistent if careful site design neutralizes the adverse characteristics of the use or site; and other land uses that, regardless of site design, are not consistent with the intent or character of the district. The purpose of this chapter is to establish the degree to which each land use is permitted in each district and establish the appropriate type of review for each land use in terms of the specific standards and requirements of each district. (Ord. 2016-029 § 1 (Exh. A) (part), 2016: Ord. 2008-46 § 1 (part), 2008: Ord. 2947 § 1 (part), 1986).

15.04.020 Land use classification system.

Land uses within each zoning district shall be classified into four principal categories which establish a class of use. The class of use generally corresponds to a type of review that is based on a level of review complexity. However, certain circumstances may alter the type of review due to a higher or lower complexity.

A. Class (1) uses are permitted, provided the district standards are met. The administrative official shall use the procedures in YMC Chapter 15.13 to review Class (1) uses and associated site improvements. Class (1) uses in certain situations may require a Type (2) review, as required by YMC 15.13.020. The procedures in YMC Chapter 15.14 shall be used to review and evaluate Class (1) uses that require a Type (2) review process.

B. Class (2) uses are generally permitted in the district. However, the compatibility between a Class (2) use and the surrounding environment cannot be determined in advance, and occasionally a Class (2) use may be incompatible at a particular location. Therefore, a Type (2) review by the administrative official is required in order to promote compatibility with the intent and character of the district and the policies and development criteria of the Yakima urban area comprehensive plan. The procedures in YMC Chapter 15.14 shall be used to review and evaluate Class (2) uses. In certain circumstances, the administrative official may require that a Class (2) use undergo a Type (3) review, as provided within this title.

C. Class (3) uses are generally not permitted in a particular district, but may be allowed by the hearing examiner after a Type (3) review and public hearing. The hearing examiner may approve, deny, or impose conditions on the proposed land use and site improvements to promote compatibility with the intent and character of the district and the policies and development criteria of the Yakima urban area comprehensive plan. The procedures in YMC

Chapter 15.15 shall be used to review and evaluate Class (3) uses or Class (2) uses that have been forwarded to the hearing examiner for review.

D. **Uses Not Permitted.** Any use listed in Table 4-1 and not classified as either a Class (1), (2), or (3) use in a particular district shall not be permitted in that district. A request for an unclassified use, under YMC 15.04.040, that is denied by the hearing examiner is considered as a use not permitted.

E. **Multiple Uses.** When two or more uses are proposed for the same project, the entire project shall be subject to the type of review required by the highest classified use, Class (3) uses being higher than Class (2), and Class (2) uses being higher than Class (1).

F. **Administrative Official's Determination of Table of Permitted Land Uses.**

1. The administrative official shall be authorized to determine whether a new or expanded use not otherwise identified in Table 4-1, Permitted Land Uses, is consistent with or similar to those already provided for within the table.

2. In the event that an applicant is aggrieved by a verbal determination of the administrative official, the applicant may submit a request for a written determination to the city of Yakima planning division.

3. If the administrative official cannot conclusively determine that a new or expanded use is consistent with or similar to those identified within Table 4-1, the determination may be referred to the hearing examiner for an interpretation as provided for in YMC Ch. 15.22. (Ord. 2016-029 § 1 (Exh. A) (part), 2016. Ord. 2008-46 § 1 (part), 2008. Ord. 3019 § 12, 1975; Ord. 2947 § 1 (part), 1986).

15.04.030 Table of permitted land uses.

Table 4-1 titled "Permitted Land Uses" is incorporated as part of this section. Each permitted land use listed in Table 4-1 is designated a Class (1), (2), or (3) use for a particular zoning district. In addition, some Class (1) uses may require Type (2) review in accordance with YMC 15.04.020. All permitted land uses and associated site improvements are subject to the design standards and review procedures of this title.

15.12.010 Purpose.

The purpose of this chapter is to specify the general requirements for permits under this title and to specify certain administrative provisions concerning permits issued under this title. (Ord. 2016-029 § 1 (Exh. A) (part), 2016; Ord. 2008-46 § 1 (part), 2008; Ord. 2947 § 1 (part), 1986).

15.12.020 Required permits.

A. **Development Permit.** Except as provided in subsection C of this section, no use, development, or modification to use or development, as those terms are defined by this title, may be established, placed, performed, constructed, made or implemented, in whole or in part, without the issuance of a development permit by the administrative official. When a building permit is required, the building permit shall serve as the development permit.

B. **Final Zoning Decision and Site Plan.** No development permit may be issued without the prior issuance of a zoning decision and final site plan by the administrative official in which the applicable appeal period has not lapsed or any filed appeal has not been resolved.

C. **Exemptions.** The following developments and modifications to developments are exempt from the review and permit provisions of this title; provided, they do not involve a required site improvement:

2. Changes to conforming structures that do not involve structural alterations as that term is defined by this title;
3. Rehabilitation of dwelling units when such rehabilitation does not expand the number of dwelling units nor physically expand the structure;
4. Accessory structures otherwise meeting the specific development standards and requirements of this title and that do not require a building permit under the provisions of the building code;
5. Exempt signs;
6. Yard sales meeting the requirements in YMC 15.04.090;

only in conjunction with that other permit. (Ord. 2016-029 § 1 (Exh. A) (part), 2016: Ord. 2008-46 § 1 (part), 2008: Ord. 2005-81 § 5, 2005; Ord. 3106 § 24, 1988; Ord. 3019 § 44, 1987; Ord. 2947 § 1 (part), 1986).

15.12.030 Compliance with development permit and final zoning decision and site plan required.

A. Development Permit Compliance Required. Development permits issued on the basis of plans, applications and conditions of approval imposed by the administrative official, and/or on the basis of a final zoning decision and site plan review, authorize only the use, arrangement, and construction set forth in the approved plans, and application together with any associated conditions of approval and the final site plan. Any use, arrangement, or construction inconsistent with that authorized is a violation of this title and is punishable as provided in YMC Chapter 15.25.

B. Site Plan Compliance Required. Whenever any detailed or general site plan is required by operation of this title and is part of any approval of development or modification of development, the final site plan shall be binding on all existing or subsequent owners and occupiers of the property. The owner and/or occupier of any property, development, or structure, which is the subject of a final detailed or general site plan, shall be required to maintain the property and development in full compliance with the terms and conditions of the approved final site plan and any associated terms and conditions of approval for the development. Failure to do so shall constitute a violation of this title and is punishable as provided in YMC Chapter 15.25.

3. The development permit issued on said decision terminates or is canceled under the provisions of this title.

B. Development Permit and Building Permit Expiration. A development permit shall automatically expire and be terminated when:

Requests for extensions shall be in writing to the division and shall be accompanied by the previously approved final general or detailed site plan showing the location and size of any development or work already completed on the project. The administrative official shall review the application without public notice or hearing and issue the decision within ten days from the receipt of the completed application. The administrative official may:

B. Certificate of Occupancy May Be Required. There is a condition of approval for the issuance of any development permit or zoning decision or any other permit or approval under this title. The administrative official and division, when engaged in administrative modification review under YMC Chapter 15.17, may require or specify that the approved use or occupancy of the structure or land may not occur without the issuance of a zoning decision issued by the administrative official certifying that all required site improvements have been fully and properly constructed and that all the terms and conditions of approval have been met. Where such condition is imposed by the administrative official, any use or occupancy of the property or structures, in whole or in part, without the issuance of a certificate of occupancy, is a violation of this title and is punishable under the provisions of YMC Chapter 15.25.

The administrative official is authorized to conduct interim and final inspections of the development and may coordinate such inspections with the inspections required by other applicable codes and regulations.

1. The applicant is unable to complete all required improvements because of unavoidable circumstances that in no way resulted from the action or inaction of the applicant or permit holder;
2. It is reasonably certain that the applicant will be able to complete the improvements within a reasonable amount of time;
3. Delaying completion of the improvements until after occupancy will not be materially detrimental to property in the vicinity of the proposed development, the health, safety, and welfare of the general public, or the goals and policies of this title and the Yakima urban area comprehensive plan;
4. Security for the completion of required improvements and terms and conditions of approval has been made in accordance with YMC 15.12.080 for any public improvements associated with the development; and
5. The development complies with minimum life and safety codes and the building official has declared the development safe for use. (Ord. 2016-029 § 1 (Exh. A) (part), 2016: Ord. 2008-46 § 1 (part), 2008: Ord. 2947 § 1 (part), 1986).

15.12.080 Performance assurance.

A. **Purpose.** The purpose of this section is to provide a means to assure that the terms and conditions of approval pertaining to construction or changes to public improvements imposed after review of development under this title are actually and properly complied with and implemented in a timely fashion.

B. **Performance Assurance Required as a Condition of Approval.** As a condition of approval of the issuance of any development permit or zoning decision, or any other permit or approval issued under this title, the administrative official may require security for the performance and completion of any proposed or required public improvement or any other term or condition of approval pertaining to a public improvement. The estimate of the performance and completion of any proposed or required public improvement or any other term or condition of approval pertaining to a public improvement will be reviewed and/or calculated by the city engineer or a designee. 4. That the security is in favor of the city of Yakima; and

5. That the applicant shall maintain the security in force until completion of the public improvement or condition for which security was provided.

D. **Security Deposits.** The following provisions apply to security in the form of a security deposit. When a security deposit is made under the provisions of this section, a written agreement shall be made and signed by the administrative official on behalf of the city. Security deposits shall be made directly to the administrative official and such funds shall be kept in an identifiable trust account. The applicant may designate the location and type of account, and any interest earned thereon shall accrue to and remain in such account. The cost of the account shall be provided for by the applicant or may be deducted from the security deposit.

If the improvements or performances secured by the deposit are not timely completed, the administrative official shall notify the applicant in writing, stating:

1. The nature of the noncompliance and the action necessary to correct the same; and
2. The amount of time in which the applicant has to take corrective action; and
3. That if corrective action is not completed within the time specified the city will apply the funds in the security deposit in order to effect compliance.

If the corrective action is not taken by the applicant or permit holder within the time specified in the notice given by the administrative official, the city shall, through its representatives, take whatever action that the city deems necessary. In addition, the city shall perform or complete the items covered by the security deposit and shall apply funds held therein to the cost of such completion or performance. Any excess or surplus funds shall be refunded to the applicant.

E. **Bonds.** The following provisions shall apply to bonds provided as security under this section. The bond or other security shall be in an amount and with such surety and conditions satisfactory to the administrative official.

F. **Deeds of Trust.** Security provided in the form of deeds of trust shall comply with the following provisions. Deeds of trust shall be recorded, the cost of which will be borne by the applicant. If the improvements or performance secured by the deed of trust are not completed, the administrative official shall notify the applicant in writing, stating:

1. The nature of the noncompliance and the action necessary to correct the same;
2. The amount of time in which the applicant has to take corrective action; and
3. That if corrective action is not completed within the time specified the city will take corrective action itself and/or foreclose the deed of trust.

On failure of the applicant or permit holder to complete corrective action within the time specified, the city may, at its option and through its designated representatives, either:

- a. Take action necessary or convenient to perform or complete the events secured by deed of trust, and thereafter institute foreclosure of the deed of trust in any manner allowed by law; or
- b. Institute foreclosure action on the face amount of the deed of trust in any manner allowed by law.

G. **Partial Releases.** An applicant may request a partial release of any security provided under this section based on partial completion or compliance with the events secured. If the administrative official determines that partial release is warranted, he may cause a partial release of security in an amount deemed by him to be appropriate.

H. **Applicant and Permit Holder Responsible for Deficiencies.** The applicant and/or permit holder is responsible for all costs incurred by the city in causing completion of the events secured by any security provided for under this

He began with storage facilities, residential, mini-storage removing the word “completely”. The Commission engaged in a discussion about Class 2 changes and the associated notification process. Commissioner White distributed a packet summarizing the new State Bill 5290, which led to further discussion among the Commissioners. The discussion shifted to the land use table, where Martin outlined changes to Bowling Alleys, Children’s Outdoor Recreation Centers, Drive-in Theaters, and Exercise Facilities, all of which were lowered to a Type 1 Use. The Commission concurred with requiring a lower level of review for parks in residential zoning. Chair Place requested that park standards and criteria be added as a topic for future discussion. Martin continued discussing changes to the land use table, and it was agreed to consolidate Community Gardens into a single category rather than dividing them by acreage. He explained the reasoning to lower the level of review to Day Care Facilities and Centers. The Commission discussed the changes, and decided to keep the Type 2 Use in
