Development

Agreement

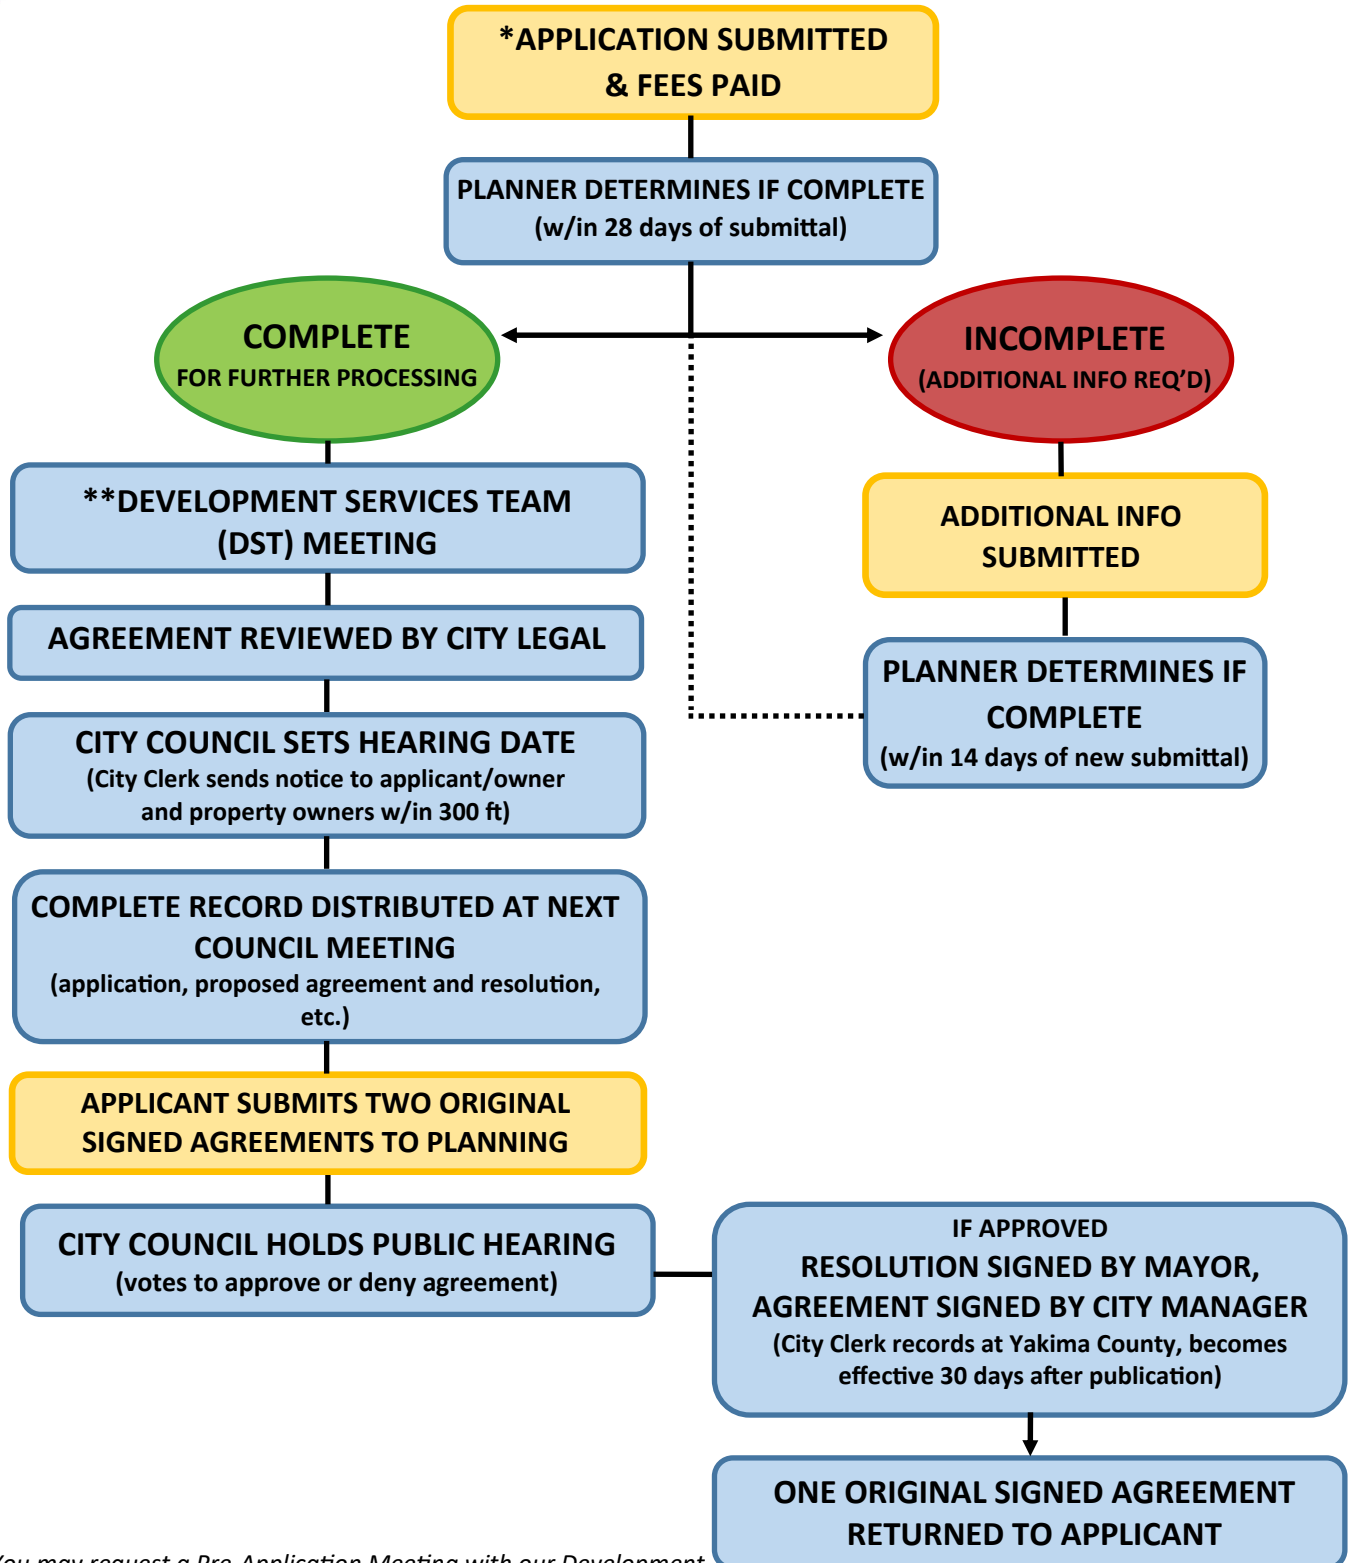

Application Packet

About this Application:

A development agreement is a voluntary contract between a local jurisdiction and a person who owns or controls property within the jurisdiction, detailing the obligations of both parties and specifying the standards and conditions that will govern development of the property. Although the agreements are voluntary, once made they are binding on the parties and their successors. A development agreement provides assurances to the developer that the development regulations that apply to the project will not change during the term of the agreement. The city or county may require conditions to mitigate project impacts, as well as clarification about project phasing and timing of public improvements. [RCW 36.70B.170](#) describes the type of development standards that are appropriate in a development agreement.
