

## Functional Classification of City Streets

The Functional Classification of Streets are those streets that are eligible for Federal or State Financial Aid and recognized by the Washington State Department of Transportation (WSDOT). Classified Streets are listed as Principal, Minor or Collector Arterial streets.

In 2009, the City of Yakima included the following street inventory.

Principal Arterials	35.30 miles
Minor Arterials	35.00 miles
Collector Arterials	27.70 miles
Local Access Streets	254.60 miles
Alleys	44.00 miles

To find the Functional Classification of any City of Yakima street, query the following list by Street Name. All streets not included on this list are considered Local Access Streets or alleyways and not part of the Functional Classification of Streets.
