## **A. Introduction**

The City of Yakima's (City) National Pollutant Discharge Elimination (NPDES) Permit No. WA-002402-3 as issued by the Department of Ecology (Ecology), states as a condition of the permit under § S6.A.4, that the City shall provide Ecology with an annual pretreatment report of its fully delegated Pretreatment Program (to be submitted no later than April 15<sup>th</sup> of each year) to briefly describe its program activities during the previous calendar year.

The City enforces Federal, State and local limits on discharges to the publicly owned treatment works (POTW) through the fully delegated Pretreatment Program, the more stringent being defined as Pretreatment Standards under § 307 (d) of the Clean Water Act. The City performed inspections and monitoring activities on twenty-nine (29) significant industrial users (SIUs) and over 492 minor industrial users (MIUs). A thorough inspection and monitoring of each SIU shall be conducted at least annually.

## **B. Sewer Use Ordinance and Special Agreement Changes**

There were no Sewer Use Ordinance or Special Agreement changes in 2016.

## **C. Local Limits**

There were no changes to the local limits in 2016. The City performs annual local limit reviews as a quick check for any obvious signs that local limits may not be adequately protective of its treatment works, its workers and the environment from the effects of interference and pass through.

## **D. Staffing and Funding of the Pretreatment Program**

There were no staffing or funding changes in 2016. The City intends to continue to provide adequate funding for staffing, capital equipment and supplies for Pretreatment in 2017.

## **E. Industrial (IW) Surveys**

In accordance with 40 CFR 403.8 (f)(2)(i), the City of Yakima is identifying and locating all possible industrial users which might be subject to the Pretreatment Program. Preliminary industrial waste (IW) surveys are submitted to each business with their business license in the Codes Department. Business owners can also obtain IW Surveys by going to the City's

website. Upon receipt of the completed IW survey in the pretreatment office, the business is added onto a spreadsheet and tracked. An initial review of the IW survey is made to determine whether this business is of "concern" to the City's POTW. If the IW survey is designated as a "no concern" the survey is filed with no further follow-up. An inspection and possible testing are used to determine whether to add the industrial user to the Pretreatment Program. When an initial review or inspection reveals the business or industry to possibly be an SIU or MIU, Pretreatment submits "Follow-Up" IW surveys to the businesses in question. The "Follow-Up" IW survey is more in depth and thorough regarding chemical usage and discharge characteristics.

Information sources for Industrial Wastewater Surveys include: internet and telephone books searches for target industries, business licenses, Yakima Herald Republic, building permits, word of mouth, and drive by observances.

## **F. Notification of Promulgated Pretreatment Standards and/or Local Standards**

SIUs are notified of any changes to the Pretreatment Standards including the proposed local limits through newspaper Public Notice, written notification, telephone conversations, and during inspections.

MIUs are notified of changes to Pretreatment Standards including the proposed local limits through newspaper Public Notice, written notification, telephone conversations, and during inspections.

A copy of the 2016 Pretreatment Newsletter sent by email and postal service to all SIUs is included in **Exhibit A**. The newsletter includes Operation and Maintenance Manual update/review reminders, Spill/Slugload Plan update/reminders, self-monitoring requirements, rate information, and discharge monitoring report requirements as well as any upgrades and projects at the POTW.

## **G. Updated Non-domestic Inventory**

### **Significant Industrial Users (SIUs)**

The City of Yakima considers the following types of businesses in our service area to be SIUs because of one or more of the following criteria:

1. Is subject to Federal categorical pretreatment standards; or
2. Discharges an average of twenty-five thousand gallons per day or more of process wastewater to the POTW (excluding domestic wastewater and non-contact cooling water); or
3. Contributes a process waste stream which makes up five percent or more of the average dry weather hydraulic or organic capacity of the POTW treatment plant; or
4. Is designated as such by the City on the basis that it has a reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement.

### Minor Industrial Users (MIUs)

The City of Yakima considers the following types of businesses in our service area to be MIUs because of one or more of the following criteria;

1. Discharges wastewater which meets at least one of the following criteria:
  - a. Daily average process wastewater flows exceed five thousand gallons per day, but not more than twenty-five thousand gallons per day (excluding domestic wastewater and non-contact cooling water); or
  - b. Maximum daily discharge volume which exceeds one percent of the average dry weather hydraulic or organic capacity of the POTW; or
2. Is otherwise deemed by the City to be categorized as a MIU.

Businesses that are classified as an MIU include food service establishments, automotive facilities, dental and medical clinics, grocery stores, Laundromats, schools, jails, assisted living facilities, as well as miscellaneous businesses deemed by the City as having the potential to cause interference or pass-through at the POTW.

**U. The City of Union Gap / Terrace Heights Sewer District / City of Moxee Annual Pretreatment Reports**

In accordance with the Special Agreements between the City of Yakima, the City of Union Gap, Terrace Heights Sewer District and the City of Moxee, the City of Union Gap, Terrace Heights Sewer District and the City of Moxee are responsible for the submittal of an annual Pretreatment report to the City of Yakima and to the Department of Ecology by February 15<sup>th</sup> of each year.

The City of Union Gap, Terrace Heights Sewer District and the City of Moxee Pretreatment Reports have been enclosed as **Exhibits K**.

**V. 2017 - Planned Changes in the Pretreatment Program**

- A "3-Party Wholesale Service Agreement" for wholesale wastewater treatment and disposal between the City of Yakima, Union Gap and the Terrace Heights Sewer District was approved in November of 2014. Currently, the Department of Ecology (Ecology) acts as the Control Authority over the jurisdictions of Terrace Heights Sewer District/City of Moxee and the City of Union Gap. Ecology has indicated that the Control Authority will most likely be delegated to the City of Yakima upon re-issuance of the City's NPDES permit. Should the Control Authority be delegated to the City from Ecology, the City will obtain the responsibility of writing and issuing wastewater discharge permits to extra-jurisdictional SIUs.
- An additional Pretreatment Crew Leader is budgeted for 2017.
