KEEP
Fats
Oil
and
Grease
Out of

DO THIS:

- ◆ **Scrape or wipe down** dishes with a dry paper towel and **throw the towel in the garbage**
- ◆ Keep grease off of the floor and **use spill kits in the event of a spill**
- ◆ **Pour** used cooking **oil, or grease into a sealed recycle barrel**
- ◆ **Install signs** over ALL sinks that state NO GREASE IN THE DRAINS
- ◆ **Train employees** in the importance of keeping FOG out of the sewer system

SO YOU CAN:

- ◆ **Save \$\$\$ on sewer bills**
- ◆ **Have lower maintenance costs**
- ◆ **Keep drains from getting clogged**
- ◆ **Avoid blockages in pipes and drains**
- ◆ **Prevent violation penalties**

Fats, Oils and Grease are found in common food and food ingredients such as meat, fish, butter, cooking oil, mayonnaise, gravies, sauces and food scraps

Your best line of defense is to train employees on Best Management Practices

Always clean up spills inside and outside of your business immediately!
