- City of Union Gap Annual Pretreatment Report
 - Terrace Height Sewer District/City of Moxee Annual Pretreatment Report

A. Introduction

The City of Yakima's (City) National Pollutant Discharge Elimination (NPDES) Permit No. WA-0024023 as issued by the Department of Ecology (Ecology), states as a condition of the permit under § S6.A.4, that the City shall provide Ecology with an annual pretreatment report of its fully delegated Pretreatment Program (to be submitted no later than April 15th of each year) to briefly describe its program activities during the previous calendar year.

The City enforces Federal, State and local limits on discharges to the publicly owned treatment works (POTW) through the fully delegated Pretreatment Program, the more stringent being defined as Pretreatment Standards under § 307 (d) of the Clean Water Act. The City performs inspections and monitoring activities on twenty-four (24) significant industrial users (SIUs) and over 477 minor industrial users (MIUs). The City also administers permits to 6 extra-jurisdictional facilities. A thorough inspection and monitoring of each SIU shall be conducted at least annually.

B. Sewer Use Ordinance and Special Agreement Changes

There were no Sewer Use Ordinance or Special Agreement changes in 2022.

A copy of Yakima Municipal Code Chapter 7.60 Wastewater Collection and Treatment Rates and Charges is included in **Exhibit B**.

C. Local Limits

There were no changes to the local limits in 2022. The City performs annual local limit reviews as a quick check for any obvious signs that local limits may not be adequately protective of its treatment works, its workers and the environment from the effects of interference and pass through. A list of City of Yakima local limits is included in **Exhibit C**.

D. Staffing and Funding of the Pretreatment Program

There were staffing and funding changes in 2022. Codified sewer rate increases became effective January 1, 2022, including increases in the monthly sewer pretreatment fee for MIU's and strong waste surcharges. The City intends to continue to provide adequate funding for staffing, capital equipment and supplies for Pretreatment in 2023.

<u>Job Title</u>	<u>Number of Full Time Equivalents</u>
Pretreatment Supervisor	1
Environmental Compliance Specialist	1
Pretreatment Crew Leader	3
Pretreatment Technician	3

E. Industrial (IW) Surveys

In accordance with 40 CFR 403.8 (f)(2)(i), the City of Yakima is identifying and locating all possible industrial users which might be subject to the Pretreatment Program. Preliminary industrial waste (IW) surveys are submitted to each business with their business license in the Codes Department. Business owners can also obtain IW Surveys by going to the City's website. Upon receipt of the completed IW survey in the pretreatment office, the business is added onto a spreadsheet and tracked. An initial review of the IW survey is made to determine whether this business is of "concern" to the City's POTW. If the IW survey is designated as a "no concern" the survey is filed with no further follow-up. An inspection and possible testing are used to determine whether to add the possible industrial user to the Pretreatment Program. When an initial review or inspection reveals the business or industry to possibly be an SIU or MIU, Pretreatment submits "Follow-Up" IW surveys to the businesses in question. The "Follow-Up" IW survey is more in depth and thorough regarding chemical usage and discharge characteristics.

F. Notification of Promulgated Pretreatment Standards and/or Local Standards

SIUs and MIUs are notified of any changes to the Pretreatment Standards including the proposed local limits through newspaper Public Notice, written notification, telephone conversations, and during inspections.

A copy of the 2022 Pretreatment Newsletter was sent by mail or email to all SIU's. This newsletter is included in **Exhibit A**

G. Updated Non-domestic Inventory

Significant Industrial Users (SIUs)

The City of Yakima considers the following types of businesses in our service area to be SIUs because of one or more of the following criteria:

1. Is subject to Federal categorical pretreatment standards; or
2. Discharges an average of twenty-five thousand gallons per day or more of process wastewater to the POTW (excluding domestic wastewater and non-contact cooling water); or
3. Contributes a process waste stream which makes up five percent or more of the average dry weather hydraulic or organic capacity of the POTW treatment plant; or
4. Is designated as such by the City on the basis that it has a reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or requirement.

Minor Industrial Users (MIUs)

The City of Yakima considers the following types of businesses in our service area to be MIUs because of one or more of the following criteria;

1. Discharges wastewater which meets at least one of the following criteria:
 - a. Daily average process wastewater flows exceed five thousand gallons per day, but not more than twenty-five thousand gallons per day (excluding domestic wastewater and non-contact cooling water); or
 - b. Maximum daily discharge volume which exceeds one percent of the average dry weather hydraulic or organic capacity of the POTW; or
2. Is otherwise deemed by the City to be categorized as a MIU.

Businesses that are classified as an MIU include food service establishments, automotive facilities, dental and medical clinics, grocery stores, laundromats, schools, jails, assisted living facilities, as well as miscellaneous businesses deemed by the City as having the potential to cause interference or pass-through at the POTW.

An updated non-domestic inventory that includes both SIUs and MIUs has been enclosed as **Exhibit D**. The SIU list also indicates the date that each facility was inspected in 2022.

H. Authorization to Discharge

Authorization to Discharge Temporary Permits - Temporary discharges, such as groundwater clean-up, require an "Authorization to Discharge".

The City issued the following temporary 'Authorization to Discharge' permits during 2022.

1. **Nob Hill Water Association:** (Dave England) was issued an Authorization to Discharge (effective January 1, 2022 – December 31, 2022) to batch discharge potable water used to flush dead ends or new mains at various locations throughout the Nob Hill Water system.
2. **Granite Petroleum:** Was issued an Authorization to Discharge (effective July 21, 2022 – August 5, 2022) to discharge groundwater at the Walmart Fuel Center site at 2269 Chestnut Ave. Yakima, WA 98901.

Copies of the Authorization to Discharge for Nob Hill Water Association, and Granite Petroleum have been included in **Exhibit E**.

I. Industrial Wastewater Discharge Permits

The City is responsible for issuing all SIUs an industrial wastewater discharge permit. Industrial wastewater discharge permits are issued for a specified time period of up to five (5) years. Permits issued by Ecology and delegated to the City of Yakima will be re-written and issued to the SIU by the City. Wastewater discharge permits, however, may be extended at the discretion of the Wastewater Manager. Five new Industrial Wastewater Discharge Permits were re-issued/issued in 2022.

1. **Washington Fruit and Produce Company N. 6th Ave. (G):** 1500 N. 6th Ave. **Permit #CY-WFPRRG-31.** A five year permit became effective on February 15, 2022 and expires at midnight on February 14, 2027.
2. **Roche Fruit Ltd. #2:** 404 N. 1st Ave. **Permit #CY-RF2-03.** A five year permit became effective on April 15, 2022 and expires at midnight on April 14, 2027.
3. **Jewel Apple Ltd.:** 701 N. 1st Ave. **Permit #CY-JA-11.** A five year permit became effective on August 15, 2022 and expires at midnight on August 14, 2027.
4. **Del Monte Foods Plant #125:** 108 W. Walnut St. **Permit #CY-DMF-01.** A five year permit became effective on January 1, 2023 and expires at midnight on December 31, 2027.
5. **Cintas #605:** 918 N. 5th Ave. **Permit #CY-CIN-08.** A five year permit became effective on January 1, 2023 and expires at midnight on December 31, 2027.

J. Compliance Inspections

The City of Yakima conducted a compliance inspection on twenty-four of the twenty-four SIUs, at least once during 2022 in accordance with 40 CFR 403.8(f)(2)(v) and § S.6.A.d. of the City's NPDES Permit. All facilities are subject to random inspection. A copy of the Compliance Inspection Report was sent to each of the SIUs.

K. SIU Sampling Results

SIU sampling results for 2022 have been enclosed as *Exhibit F*.

The City of Yakima sampled each SIU at least once during 2022 in accordance with 40 CFR 403.8(f)(2)(v) when self-monitoring was conducted by the SIU. If self-monitoring was not conducted by the SIU, the City of Yakima sampled the SIU at least once in accordance with § S6.A.g. of the City's NPDES Permit.

L. MIU Sampling Results

The Pretreatment Program classifies 477 businesses as MIUs, 375 were inspected and/or sampled in 2022.

Results of MIU sampling for 2022 have been enclosed in *Exhibit G*.

M. Commercial and Residential Sampling Results

The Pretreatment Program conducted sanitary sewer monitoring of commercial and residential users at key locations throughout the City. This information will be used in a future detailed local limit recalculation.

Results of Commercial and Residential Sampling for 2022 have been enclosed in ***Exhibit H.***

N. Terrace Heights Sewer District Sampling Results

The Pretreatment Program performs monthly sampling for BOD, TSS, pH, and FOG, and quarterly sampling for metals at the Terrace Heights Sewer District sampling port located at the Yakima WWTP. Terrace Heights was in compliance with 2022 monitoring.

Results of Terrace Heights Sewer District sampling have been enclosed in ***Exhibit I.***

O. City of Union Gap Sampling Results

The Pretreatment Program performs monthly sampling for BOD, TSS, pH, and FOG, and quarterly sampling for metals at Union Gap's master lift station, Pierce Avenue, Rainier Avenue and Valley Mall Boulevard. Union Gap was in compliance with 2022 monitoring.

Results of Union Gap sampling have been enclosed in ***Exhibit J.***

P. Wastewater Sampling at the Treatment Plant

Special Condition S4.B. of the City of Yakima's NPDES Permit, specifies that the City submit results of wastewater sampling as specified in Special Condition S6.B. at the treatment plant.

Priority Pollutants – Metals, phenols, cyanide, VOCs, Semi-VOCs and Pest/PCBs.

1. Influent
2. Effluent
3. Biosolids
4. Metals and organic priority pollutant removal rates

Whole Effluent Toxicity (WET) Testing

Spring/Summer 2022

The Spring/Summer Chronic WET test was initiated on June 6, 2022 using the test species *Pimephales promelas* (Fathead minnow). The City passed the Chronic WET test due to the fact that the highest concentration with no observed effect (NOEC) was 100 percent effluent for both survival and reproduction, indicating no statistically significant difference occurred between the control and the chronic critical effluent concentration (CCEC) of 9.88 percent sample.

Fall/Winter 2022

Chronic WET testing was initiated on October 3, 2022 using the test species, *Ceriodaphnia dubia* (water flea). The highest concentration with no observed effect (NOEC) was 100 percent effluent for survival and reproduction. There is no statistically significant difference between the control and acute critical effluent concentration (ACEC) of 53.8 percent effluent or the chronic critical effluent concentration (CCEC) of 9.88 percent effluent.

Results of Wastewater Sampling at the Treatment Plant have been enclosed in **Exhibit K**.

Q. Pass Through and Upsets

There was no pass-through at the City's Wastewater Treatment Plant during 2022 that was directly attributable to wastes from industrial users.

R. Effluent Violations

There were no effluent violations in 2022 that were directly attributed to industrial users.

S. Violations and Enforcement Actions

Upon these violations occurring, either warning letters, phone calls, emails, or follow-up sampling was done to address each violation. A written response or telephone call was required by each facility to indicate corrective actions to be taken to reach compliance with the City of Yakima's SEWER USE AND PRETREATMENT ORDINANCE.

SIU Violations 2022						
Business Name	Address	Violation	Result	Date of Violation	F/U Results	Enforcement Response
Del Monte Foods	108 W. Walnut St.	Low pH's	5.05, 5.48	10/22, 10/29	-	Back in Compliance
Evans Fruit	5002 Tieton Dr.	Failure to Sample 4th Qtr	-	4th Qtr	-	Violation Letter/ Sampling is Being Taken Over by the City

T. Compliance Schedules

In accordance with § S6.A. of the City of Yakima's NPDES Permit, the following industrial users were put on compliance schedules.

Del Monte Foods #125 was issued a new wastewater discharge permit on December 21, 2022 and became effective on January 1, 2023. Within this new wastewater discharge permit is a compliance schedule to have a diversion valve installed to divert process wastewater from the industrial waste line to the sanitary sewer system. This must be completed by December 31, 2023. Compliance schedule update reports are due on the 15th of the month following the end of each quarter until the diversion valve installation has been completed. A final report is due by January 15, 2024.

U. Public Notice of Industrial Users in Significant Noncompliance

The City of Yakima Wastewater Division enforces Federal, State, and local limits on process wastewater discharges to the Publicly Owned Treatment Works (POTW) through the use of a fully delegated Pretreatment Program, the more stringent being defined as Pretreatment Standards under Section 307 (d) of the Clean Water Act.

In accordance with 40 CFR Part 25 and 40 CFR 403.8 (f) (2) (vii), the Pretreatment Program is hereby providing public notice of all industrial users which have demonstrated Significant Noncompliance with the Pretreatment Standards, and thus with the City of Yakima's Sewer Use and Pretreatment Ordinance within the previous twelve (12) months:

There were no industrial users in significant noncompliance in 2022.

V. The City of Union Gap / Terrace Heights Sewer District / City of Moxee Annual Pretreatment Reports

In accordance with the Special Agreements between the City of Yakima, the City of Union Gap, Terrace Heights Sewer District and the City of Moxee, the City of Union Gap, Terrace Heights Sewer District and the City of Moxee are responsible for the submittal of an annual Pretreatment report to the City of Yakima and to the Department of Ecology by February 10th of each year.

The City of Union Gap, Terrace Heights Sewer District and the City of Moxee Pretreatment Reports have been enclosed as ***Exhibit L***.
