

“7.68.250 Water services charges.

A. From January 1, 2014, the charge for domestic water supplied within the City of Yakima shall consist of a ready-to-serve charge and a charge for water consumed. Ready to serve charges are as follows:

Ready-to-Serve Charges:		
Meter size		Charge per Two-Month Period
¾" and smaller		\$17.54
1"		22.14
1-1/2"		34.43
2"		49.23
3"		83.80
4"		133.17
6"		256.48
8"		499.94
10"		749.93
12"		1095.37

Charges for water consumed are as follows, expressed in rates per UOC, where “UOC” means Unit of Consumption and equals 100 cubic feet of water:

Rate Per UOC

\$1.46

C. The Ready-to-Serve charge shall be computed on a daily basis.

D. The minimum use charge is computed the cost for six (6) units of consumption divided by 60 days.

E. The minimum charge is the daily Ready-to-Serve charge plus the daily minimum use charge.

F. All charges for water supplied outside the city shall be computed by multiplying the applicable rates set forth in paragraphs A through D of this section by one and one-half.

G. Home Kidney Dialysis. A residential customer who undergoes kidney dialysis at his or her home, or whose home is also the home of a different person who undergoes home kidney dialysis, shall not be required to pay utility charges for domestic water service or sewer service for the quantity of water that is necessary for the home dialysis. In order to be excused from utility charges under this subsection, the residential customer must present to the director of finance and budget or their designee written documentation annually from a recognized kidney dialysis center certifying that the person requires dialysis and the quantity of water needed for that person’s dialysis.”
